Join us in Buenos Aires!

We look forward to welcoming you to Buenos Aires for the 2018 FDI World Dental Congress (WDC). The WDC is a flagship event for FDI, strengthening ties and fostering collaboration within the global oral health community. The WDC offers a unique opportunity to meet with leaders of the oral health profession from around the globe.

To advance the art and science of dentistry, this annual event delivers:

- A cutting-edge scientific programme
- Interactive forums
- A dental exhibition attended by the most prominent figures in the dental industry

The WDC offers dentists and other oral health practitioners the opportunity to stay informed of the latest technology and practices in dental care.

The FDI WDC 2018 will be held at La Rural, the most polished and prestigious convention center in the country. Built in 1878, La Rural is a unique and exclusive site, thanks to its prime location in the heart of the city of Buenos Aires. Here, exhibitors will be able to display their equipment, products and services in a country known for its excellence in dental care.

The dental profession and the dental industry are essential partners in delivering oral health to populations around the world. Bridging the gap between the two is even more important today, as new materials and technology are developed to accommodate the latest treatment philosophies.

Buenos Aires, the capital of Argentina with a population of approximately 3 million, is the crown jewel of conference destinations. It is a diverse and welcoming city, well-known for its eclectic amalgam of cultures and traditions.

Drink in the magic of Buenos Aires, nicknamed the “Paris of South America”. The city is filled with opportunities for exploration and discovery. Get a taste for the city’s architectural fusion with a stroll around the city. Root for Argentina’s favorite football teams at the Bombonera stadium, or sip coffee in a romantic Belle Epoque café with the locals, known in Buenos Aires as “Porteños”. In a city with such a rich and dynamic cultural fabric, the possibilities for tourism are endless.

Brush up on your Spanish and join us in Buenos Aires, from 5-8 September 2018.

Dr Kathryn Kell
FDI President

Dr Guillermo Rivero
CORA President
## Scientific Programme

### Session types

**See topics and speakers on pages 4-6**

<table>
<thead>
<tr>
<th>Type</th>
<th>Description</th>
</tr>
</thead>
</table>
| **Meet-the-Expert sessions** | Short sessions with maximum 30 delegates and an additional fee.  
**Aim:** discuss topics directly with leading experts in specific fields. |
| **Year-in-Review**        | Session speakers present the most important updates in their field over the past year.  
2018 topic: Anaesthesia & Pharmacology |
| **Hot Topic sessions**    | A series of two or more lectures on the same or related hot topics.  
2018 topics:  
- Future of dental materials  
- Digital dentistry / CAD-CAM |
| **Symposia**              | A series of two or more lectures on the same or related topics.  
2018 topics:  
- Contemporary treatment of caries lesions  
- FDI Global Periodontal Health Project (GPHP): an update, deliverables and actions  
- FDI Peri-Implant Disease Project (PIDP) (title TBC)  
- Oral Health Observatory (title TBC)  
- NCD Alliance (title TBC) |
| **Workshops**             | Interactive training sessions with a limited number of participants.  
2018 topics:  
- Publishing in dental literature  
- Dental ethics (title TBC) |
| **FDI Committee/Section sessions** | 2018 topics:  
- Dental Practice Committee: Quality in dentistry  
- Public Health Committee/Chief Dental Officers: Tooth loss, how to handle it? A public health perspective  
- Science Committee: Nanoparticles in dentistry - risks and promises  
- Women Dentists Worldwide |
| **FDI Affiliate session** | Academy of Osseointegration Symposium: Optimizing care and managing complications  
- IAPR-International Association of Paediatric Dentistry Symposium: Molar incisor hypomineralization and dental erosion in children |
| **World Oral Health Forum (WOHF)** | WOHF addresses global challenges and opportunities related to oral health which are relevant to dentists, but also society at large.  
2018 topic: Oral health for an ageing population (exact title to be confirmed) |
| **New! Innovation and Technical Sessions** | A new platform where the industry has the opportunity to showcase their innovative and top-notch new products. These sessions will be held in the networking area located at the center of the exhibition hall. |
| **Industry Lunch Symposia** |  
- Colgate  
- gsk |
| **Posters and free communications** | Abstract submission deadline: 30 March 2018  
Selected abstracts published in the International Dental Journal |

### Continuing Education

FDI World Dental Federation is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. This continuing education activity has been planned and implemented in accordance with the standards of the ADA Continuing Education Recognition Program (ADA CERP) through joint efforts between FDI World Dental Federation and the Argentinian Dental Association. Delegates who have registered for the Congress are eligible to receive continuing education points by attending scientific sessions throughout the congress. Certificates will be available for download after the congress. Concerns or complaints about a CE provider may be directed to the provider or to the Commission for Continuing Education Provider Recognition at ADA.org/CERP.

**Number of points available:** 1 point per hour, maximum 6.5 per day (main scientific and Meet-the-Expert sessions)

- Biological failures in implant dentistry
- Impact of advancement of digital dentistry on prosthetic treatment workflow
- Strategies for management of sleep bruxism - clinical implication of basic findings
- Prevention and resolution of complications related to alveolar reconstruction
- Dealing with endodontic pain: evidence-based choices
- Molar incisor hypomineralization and dental erosion in children
- Digital workflows in orthodontics
- Local anesthetic and analgesic drugs in dentistry
- Proposed drugs for pain management in dentistry
- Future of dental materials
- Defending caries all through every phase of life
- Early childhood caries: problems of the very young and the role of the family
- Treatment principles and prognosis in dental trauma with challenging cases
- Tips and tricks for the adhesive cementation of different prosthodontic restorations and materials
- Marginal seal in traditional, adhesive and digital dentistry: when is it clinically acceptable?
- Ideal preparation and adhesive luting techniques for CAD/CAM inlays and partial crowns

Languages
The official languages of the Congress are English and Spanish. All international sessions will be given in English and simultaneously translated into Spanish. The Argentinian programme presentations will be given in Spanish and simultaneously translated into English.

Certificates
Participants will receive a certificate of attendance at the Congress.

Name badge
All participants are advised to wear their badge at all times during the Congress.

Accommodation
Buenos Aires offers a wide variety of hotels for every budget. Every effort has been made to reserve rooms in positively rated, centrally located hotels.

For more details on accommodation options and bookings please visit www.worlddentalcongress.org/registration_accommodation/

Getting to the congress

Airport
The Ministro Pistarini International Airport (EZE) is 35 km (22 miles) southwest of downtown Buenos Aires.

Taxis and Uber
You can either call a taxi or hail one in the street. They only accept Argentinian Pesos (AR$), although some might accept credit cards. Uber is active in the city and is a popular choice.

Public transportation
Public transportation is one of the best ways to get around the city. Buenos Aires has a subway “Subte” system and a public bus network. Congress event planners recommend taking the subway to reach the congress center from downtown.
Exhibition

The FDI World Dental Congress is well-known for its trade exhibition, popular among oral health industries around the world. FDI 2018 Buenos Aires offers easy navigation between the meeting halls and the exhibition area. The WDC exhibition will span an area of 23,000 m². Most food and beverage options will be included within the exhibition halls to maximize the amount of time visitors spend in the exhibition.

Find out more at www.worlddentalcongress.org

Opening hours
from 5–8 September 2018

- Wednesday 5 Sept. 9:30 - 18:00
- Thursday 6 Sept. 9:30 - 18:00
- Friday 7 Sept. 9:30 - 18:00
- Saturday 8 Sept. 9:30 - 18:00

Entrance to the exhibition is free for all registered visitors and congress participants.

Who will be there?

- Dentistry
- Prosthodontics
- Stomatology
- Paediatric dentistry
- Endodontics
- Oral and maxillofacial surgery
- Orthodontics
- Periodontics
- Hygiene, etc.
See you in Buenos Aires!

The capital of Argentina is a vibrant metropolis, home to over 3 million people. Stunning architecture, both old and new, defines the cityscape, as well as a lively arts and cultural scene. Buenos Aires is a major commercial, financial and political center for Latin America.

History
Buenos Aires was founded twice. It was first founded in 1536, when the Spanish colonizer Pedro de Mendoza established the first settlement. He named it ‘Ciudad del Espíritu Santo y Puerto Santa María del Buen Ayre’ (City of the Holy Spirit and Port Saint Mary of the Good Air). Jean de Garay founded the city a second time in 1580, calling it the ‘Ciudad de Trinidad’ (City of Trinity).

Culture & Arts
Argentina is a melting pot of individuals from around the world. During the second half of the nineteenth century, the Argentinian state promoted the country as an attractive destination for immigrants, mostly from Europe. As a result, Buenos Aires has developed a rich cultural eclecticism, making it a special place to visit.

Explore the city
Buenos Aires has countless museums and exhibition spaces with rich cultural programs for all interests and tastes. Start with the Museo Nacional de Bellas Artes, which houses the largest public art collection in Latin America.

Wander through the landmark Cementerio de la Recoleta, a cemetery filled with opulent statues and marble mausoleums. Eva Perón was laid to rest here, as well as other notable government figures and Argentinian Noble Prize winners.

Rent a bike and cycle through the Bosques de Palermo (Palermo Woods), a beautiful park in Buenos Aires that was originally the private grounds of 19th century dictator, Juan Manuel de Rosas.
Tango
This iconic dance is ever-popular in Buenos Aires, among locals and visitors alike. Start your initiation with a tango show or stop by an evening milonga (social dance). Private and group lessons are easy to find.

Opera
The Teatro Colón in Buenos Aires is one of the most reputable opera houses in the world. Many prominent artists from all around the globe have graced the Teatro Colón stage. The theatre is the pride of the Argentinian culture and a standard for opera, ballet, and classical music across the world.

Food and Drink
Embark upon a culinary-themed walking tour around Buenos Aires. Duck into an Argentine bakery and try the dulce de leche-filled suspires de monja (nun’s sighs) pastries. Meat lovers will enjoy Argentina’s famous parrillas, or grill restaurants, and empanadas, savory meat, egg, and olive-filled pockets of pastry dough. For dessert, go to a heladería, or ice cream parlour, to try a selection of artisanal ice creams.

This is just a snapshot of the limitless offerings for visitors in Buenos Aires. For more traveler’s tips and tourism information in Argentina, please visit www.argentina.travel/en.
